

# NEW Career Accelerator Workshop

## Build insight and self-awareness for your high-potential leaders

NEW Career Accelerator is a one-day workshop for NEW partner companies offering participants valuable insight into who they are, and how their strengths and weaknesses impact their work as a leader. By combining two powerful customized assessments – NEW’s custom version of Center for Creative Leadership’s (CCL) EQi 2.0, for emotional intelligence insights, and the CCL 360, for impactful 360 feedback – companies can offer high-potential leaders the insight they need to thrive.

The program also includes the development of a comprehensive Individual Development Plan, giving leaders concrete takeaways for sustained growth.

This workshop offers flexible, customizable options for delivery. The workshop may be customized to include a dedicated company executive question and answer session, an executive panel discussion, which can be assembled by NEW upon request, or include additional leadership development modules. Executive coaching may also be added for a fee.

### Program Objectives

- Gain insight into leadership style with comprehensive 360 feedback.
- Develop stronger self-awareness with an emotional intelligence assessment, debriefed by a highly insightful Industrial/Organizational Psychologist.
- Develop an Individual Development Plan to guide future growth.

### Workshop Cost
