

NEW Mastermind Groups

Senior-level peers tackling challenges and learning together

NEW Mastermind Groups

NEW Mastermind Groups are senior-level executive peer-to-peer groups who regularly meet to tackle challenges and problems together in a moderated, confidential environment. These groups give high-achieving leaders the opportunity to collaborate with peers in similar positions who can relate to their challenges and offer advice.

This trusted “learning community” can accelerate problem-solving, leadership development, and increase confidence. Participants challenge each other to create and implement goals, brainstorm ideas, and lean on each other for support. Groups bring together individuals from different organizations to foster diversity of thought and experience, offering a unique opportunity collaborate with those who understand what an executive is going through, but can also offer an objective, outside perspective.
